Message from Vice Chancellor

I feel honored to present Annual Report of Sumandeep Vidyapeeth for the year 2023-24. Sumandeep Vidyapeeth bears the distinction of being the only Health Science Higher Education Institution in the state of Gujarat to be classified as a Category -I University under the UCG [Categorization of Universities (only) for grant of graded autonomy] Regulations 2018.

Over the past one year Sumandeep Vidyapeeth has continued its quest towards achieving greater heights and newer milestones.

The Institution over past one year has achieved many distinctions which are reflected in this annual report. I applaud Faculties, Staff and Students of Sumandeep Vidyapeeth for their scholarly, cultural and extracurricular achievements during the year, and look forward to their dynamism in keeping up with the ever-increasing demands of higher education institutions for excellence. I hope the annual report gives everyone an insight of the Institution and its achievements during the academic year 2023-24.

Dr.R.P. Bharaney
Vice Chancellor

7. Institutional Social Responsibility and Community outreach activities

The goal of Sumandeep Vidyapeeth, Department of Paramedical Sciences is to develop skilled paramedical professionals who are essential to the healthcare system. By offering students specialized training in a range of paramedical disciplines, the department seeks to close the gap between medical professionals and patient care. A group of exceptionally skilled professors with backgrounds in a range of paramedical fields make up the department. Faculty members actively participate in research, teaching, and learning. The support staff makes sure that administrative duties, lab operations, and student support services run smoothly. Our department's students have continuously achieved academic success and been placed in prestigious medical facilities. We have seen our students land jobs in respectable health sector field in a range of various disciplines as per their expertise around the country. Our students have participated in various NSS activities to enlighten patriotism for our motherland such as Independence Day celebrations and many other activities related to patient care throughout the academic year through participation in Blood donation activities with co-ordination of Dhiraj Hospital. N.S.S students have also participated in "SwachhataPakhwada" Swachhata hi seva .

STUDENT AND FACULTY DEVELOPMENT CELL

1. Brief write-up about the Student and Faculty Development Cell:

A Student and Faculty Development Cell (SFDC) is essential for educational institutions, fostering holistic growth for students and faculty. SFDC plays a pivotal role in enhancing the overall quality of education by creating an environment conducive to learning, personal development, and professional growth. The primary objective of SFDC is to provide a supportive framework that nurtures the intellectual, emotional, and social development of students while also facilitating the continuous growth and improvement of faculty members. The cell strives to create a well-rounded educational experience by organizing various academic and extracurricular activities that enable students to explore their interests, develop critical thinking skills, and become responsible and ethical citizens. Furthermore, the SFDC recognizes the pivotal role of faculty members in delivering high-quality education. It is responsible for providing opportunities for faculty development and training, ensuring that educators are equipped with the latest teaching methodologies, technological advancements, and subject matter expertise. By fostering a culture of continuous learning and research, the SFDC helps faculty members stay updated in their respective fields, thus enhancing the overall teaching and research standards of the institutions. SFDC focusing on the comprehensive growth of students and the professional development of faculty and contributes significantly to the institution's reputation, academic rigor, and its ability to prepare students for the challenges of the modern world.

AIM:

- To build a platform of innovation and educational leadership to strengthen the faculty profile to compete with the world class excellence and to bring a qualitative and quantitative change in the teaching-learning process for both undergraduate and post graduate students of the university.

Evidence Based Education System Cell (EBES)

1. Brief write up about the cell

The Evidence-Based Education System (EBES) at SumandeepVidyapeeth deemed to be university represents a pioneering and distinctive approach that forms the bedrock of our institution's commitment to delivering the highest standards of education. This innovative program is underpinned by a thoughtful selection of teaching methodologies and learning strategies, all centered around the core principle of evidence-based education. Let's delve deeper into the key aspects of this system and how it benefits our students:

Specialized Courses: To ensure that our students across various constituent colleges understand and apply the concept of evidence-based practice, SumandeepVidyapeeth has developed specialized courses tailored to the unique requirements of each discipline. These courses cover a wide spectrum, including Evidence-Based Medicine (EBM), Evidence-Based Dentistry (EBD), Evidence-Based Pharmacy, Evidence-Based Physiotherapy, Evidence-Based Nursing, and Evidence-Based Management. The primary goal of these courses is to equip our students with the essential skill of making informed decisions grounded in the available evidence. This entails developing the ability to systematically search for all relevant evidence, critically evaluate the quality of evidence, identify the most reliable sources, and assess the applicability of this evidence in real-world clinical scenarios. By focusing on these skills, we empower our students to become adept at evidence-based decision-making, a vital competency in healthcare practice.

Integration into Curriculum: We integrate these evidence-based courses into the curriculum for undergraduate students across all constituent colleges. Starting from the very first year of their academic journey and extending through to the final year, students are exposed to the principles and practices of evidence-based healthcare. This ensures that they have a solid foundation in this critical aspect of modern healthcare delivery.

Effective Teaching: Trained faculty members are entrusted with delivering theory lectures on the concept of evidence-based practice. These educators are well-versed in the principles of evidence-based education and provide students with a comprehensive understanding of the subject matter.

Reference Modules: To facilitate learning, we provide reference modules for each subject. These resources serve as valuable aids for students, offering additional support in their studies and helping them access relevant information to strengthen their evidence-based skills.

Practical Application: Knowledge acquisition is not limited to theoretical understanding. To reinforce their learning, students actively engage in evidence-based activities. These

activities allow them to put their knowledge into practice, thereby bridging the gap between theory and real-world application.

Comprehensive Assessment: Both theoretical and practical assessments are conducted to evaluate students' comprehension and application of evidence-based principles. The results of these assessments are reflected in their final transcripts, emphasizing the additional training they receive in evidence-based education throughout their academic journey. SumandeepVidyapeeth's Evidence-Based Education System (EBES) is a forward-thinking approach designed to equip our students with the essential skills and knowledge required for evidence-based healthcare practice. By integrating evidence-based courses into the curriculum, providing skilled faculty, and emphasizing practical application, we ensure that our graduates are well-prepared to make informed, evidence-driven decisions in their respective healthcare fields, ultimately benefiting both individual patients and society as a whole.

3. Activities

Event1:The College of Physiotherapy at SumandeepVidyapeeth organized an Evidence-Based Education System (EBES) orientation program on the 21st and 22nd of August 2023 for newly admitted Masters of Physiotherapy (MPT) students. The program, part of the PG

Orientation for the 2023-24 batch, aimed to introduce students to Evidence-Based Health Care (EBHC) and provide hands-on experience in applying EBHC principles. Organized under the guidance of Dean Dr. G.P. Kumar, and coordinated by Dr. NehaMukkamala and Dr. PreetiRathava, the event featured senior faculty members who served as resource persons. A total of 34 students participated, engaging actively with faculty members during interactive sessions. The program successfully equipped students with a deeper understanding of EBHC in their field.

Event 2: The EBES Faculty Orientation Programme for 2023-24, a University-level Faculty Development Programme, was held on the 27th and 28th of February 2024 at Lecture Hall-3, SBKSMI&RC, SVDU. Organized by the EBES Cell of SVDU, the programme aimed to introduce newly recruited faculty members to the concepts and applications of the Evidence-Based Educational System (EBES). Led by Chairperson Dr.Monali Shah and Secretary Dr. Suresh V., 28 participants engaged in sessions focused on research design, biostatistics, database use, and critical appraisal of evidence. The event concluded successfully, with positive feedback indicating enhanced understanding of evidence-based practices among participants.

Event 3: The PG Nursing Orientation Programme (EBES) for 2023-24, organized by the EBES Core Committee at Sumandeep Nursing College, SVDU, took place on April 3, 2024, at Lecture Hall-01. This University-level event aimed to introduce postgraduate nursing students to the concepts of Evidence-Based Health Care (EBHC). Led by Chairperson Dr.Monali Shah and Secretary Mr. Suresh V., the program included sessions by experts like Dr. Anita Prakasam and Mr. Rajesh P., who discussed the importance of evidence-based practices, research designs, and effective use of databases. The 15 participants gained hands-on experience in critical appraisal and evidence-based journal clubs. The event successfully enhanced the students' understanding of evidence-based practices.

Event 4: The EBES Module Workshop for 3rd-year MBBS students (149 students) was conducted over two days on the 18th and 19th of September 2023 at Lecture Hall 2, SBKS MIRC. A total of 142 students participated in the workshop, which comprised seven sessions on Day 1 and three on Day 2. Day 1 included sessions on topics such as hypothesis testing, clinical queries, biostatistics, evidence-based protocol generation, and communication skills in research, delivered by faculty members including Dr.Nirali Chauhan, Dr. Aditya K. Agrawal, Dr. Vishal Bhardava, and Dr.Mohit Jain. Day 2 focused on group activities, project submissions, and practical applications of the PICO format, where students compared treatments at Dhiraj Hospital with international standards. The workshop concluded with a valedictory session, certificate distribution, and an online feedback collection. Feedback indicated that the overall experience was rated very good to excellent by the students.

Event 5: The EBES cell at SumandeepVidyapeeth deemed to be University, in collaboration with the SMBT Institute of Dental Sciences and Research, organized a National Workshop on Systematic Review and Meta-analysis (SRMA) from 27th to 28th June 2024. The event was coordinated by Dr.AbhijitTambe and aimed to provide postgraduate students and faculty with a comprehensive understanding of Evidence-Based Practice (EBP) and SRMA. The workshop was attended by 50 participants and included lectures and hands-on sessions, where attendees gained practical experience in formulating PICO questions, data extraction, and protocol writing in PROSPERO. The two-day event featured lectures by distinguished faculty members such as Dr. Suresh Rati, Dr.Monali Shah, Dr.RashmiVenkatesh, and Dr.SeemaBargale, covering topics from the basics of SRMA to writing SRMA reports following PRISMA guidelines. Pre- and post-tests were conducted to assess participants' learning outcomes, with positive feedback on the knowledge gained.

Institutional Social Responsibility Cell (ISR)

1. Brief write up about the ISR Cell and its functions:

The main challenge in the 21st century for the education of health professions resides in the responsibility of educational institutions for a greater contribution to improving health systems performance and people's health status. Especially in Rural area, as many Indians continue to live in rural India, and many rural communities are disadvantaged, it follows that there should be substantial academic engagement in teaching and research with rural India. Areas of study would come from many disciplines and be interdisciplinary, including best practices in rural development, rural health issues, natural resource management, livelihoods diversification, poverty alleviation strategies and good governance. An emphasis on community engagement is an opportunity to inspire the systematic development of resource materials on the rural sector to build the knowledge and capacity needed to empower disadvantaged rural citizens.

This will be achieved, not only by tailoring educational programs to priority health problems, but by a stronger involvement in anticipating health and human resources needs of a nation and in ensuring that graduates are employed where they are most needed delivering the most pressing services. A new paradigm of excellence for academic institutions is needed, as well as new sets of standards and accreditation mechanisms to promote and evaluate their capacity for a greater impact on health.

Not only these, students need to lean the voluntary work and sparing time to support society through various agencies like NSS and others. Institute will open opportunity for students to voluntary work. Along with these students and faculties of marginalized group like SC/ST, OBC, minorities like Parses, physically challenged etc should get opportunity and work.

To achieve these objectives and develop such standards in all stakeholders, university has formulated the Department of institutional social responsibility.

Objectives

- To promote social learning among the students and faculties of university.
- To ensure Leadership, Community and Team Building Skills in students.
- By providing civil education, creates the health enrichment of community.
- To spread awareness for social responsibility.
- To generate sensibility for marginalize groups of society.
- To arouse social consciousness while studies

Student Mentoring & Counselling Cell (SMCC)

1. Brief write up about the Mentorship Cell and its functions:

Mentoring is an important method of guiding and supporting students to improve their learning skills, make suitable adjustments to cope up the health/medical education and motivating them towards their future career development. By providing, a reliable and comprehensive support system, the mentoring system intends to motivate students to excel in both curricular and extracurricular activities. With this in mind, the institution has a mentorship programme wherein the faculty members meet the students frequently to listen to their issues, enable constructive interactions with mentees, guide them on their academic performance and also help in their overall personality development.

SMCC strives for the following:

1. To help the newly admitted first year students to cope up with the academics and get into a smooth transition to campus life.
2. To help the students to develop their own goals; curricular, co-curricular and extracurricular areas; and remain focused in achieving them.
3. To counsel academically weak students and help them in overcoming their barriers.
4. To play an important role in helping troubled students in coping with curricular, extracurricular and help in overall personality development.
5. To facilitate the holistic / overall development of students, identify their career goals and help in their career development.
6. To make the students understand the opportunities and challenges present inside and outside the institution / campus.
7. To regularly follow up with the mentees and review their progress, and if needed undertake corrective measures.

Sumandeep Vidyapeeth Institutional Animal Ethics Committee

1. Brief write about the committee and its function

The motto of Prevention of Cruelty to Animals (PCA) Act 1960 as amended in 1982 is to prevent infliction of unnecessary pain or suffering on animals. The Central Government as enumerated under PCA Act 1960 has constituted a Committee for Control and Supervision of Experiments on Animals (CCSEA) which is duty bound to take all such measures as may be necessary to ensure that animals are not subjected to unnecessary pain or suffering before, during or after the performance of experiments on them. For this purpose, the Government has made “Breeding of and Experiments on Animals (Control and Supervision) Rules, 1998” as amended during 2001 and 2006, to regulate the experimentation on animals.

The objective of this SOP is to contribute to the effective functioning of the Institutional Animals Ethics Committee (IAEC) so that a quality and consistent ethical review mechanism for research on animals is put in place for all proposals dealt by the Committee as prescribed by the CCSEA under PCA Act 1960 and Breeding of and

Experimentation (Control and Supervision) Rules 1998, as amended in 2001 and 2006.

As defined in "Breeding of and Experiments on Animals (Control and Supervision) Rules, 1998" "Institutional Animals Ethics Committee (IAEC)" means a body comprising of a group of persons recognized and registered by the Committee for the purpose of control and supervision of experiments on animals performed in an establishment which is constituted and operated in accordance with procedures specified for the purpose by the Committee; The primary duty of IAEC is to work for achievement of the objectives as mentioned above. IAEC should focus mainly on ensuring ethical and methodical handling of animals during and after experiments, so that they have less suffering. IAEC will review and approve all types of protocols for research involving small animal experimentation before the start of the study. For approval of experimentation on large animals, the case is required to be forwarded to CCSEA in prescribed manner with recommendation of IAEC. IAEC is required to monitor the research throughout the study and after completion of study, IAEC shall obtain the periodic reports on research development and shall ensure visit to animal house facility and laboratory where the experiments are conducted. The committee has to ensure compliance with all regulatory requirements, applicable rules, guidelines and laws.

Learning Resource Centre

1. Brief writeup about the Learning Resource Centre and its functions:

Library is the heart of any academic institution. The Learning Resource Center also acquires a prominent place towards students and faculty members of Sumandeep Vidyapeeth. The Learning Resource Center has two storied separate building surrounded by garden, it is a central place for academic and research activities. The library has a well equipped computer lab to access e-resources with NKN 1 GBPS leased line internet facility, centrally air conditioned reading rooms for UG and PG students with the seating capacity of 650 students.

The library services are provided to students, staff & faculty members for updating their knowledge and supporting the research and teaching / learning activities. These services are provided through the central library and departmental libraries. Keeping in view the fast changes in technology, the knowledge base of the library is updated regularly by way of adding new literature in the form of text books, reference books, national and international journals & databases.

The Library has a rich collection of more than 46981 books of national and internationally renowned publishers covering almost all areas of Medical, Dental, Pharmacy, Nursing, Physiotherapy, Audiology, Ayurved, Homeopathy, Management and Para medical sciences. More than 259 International and national journals are being subscribed every year.

The library has institutional membership of DELNET. Through DELNET students can access more than 2200 E-Journals on various subjects.

The Library has Subscribed Database Micromedex for Pharmacy department and Up to Date for SBKS Medical College.

The Library has Subscribed Digital Virtual Library through Student and faculty access more than 1000 of journals for all colleges.

To keep pace with ongoing technological changes the library records have been computerized for making it accessible to the faculty & students at their work places which not only save the time but also make the simultaneous multiple access of

information which otherwise is not possible in print formats. Well known Library Management software KOHA 21.5 is being used for the automation of library services.

A well equipped computer (No of Computer 65) lab is available to access e-resources for students and faculties. Online Public Access Catalogue (OPAC) of books, journals and several useful resources available on internet have been identified and links are made available on the library Web page

The library has also developed an institutional repository using Dspace open source software. The repository can be accessed on intranet. Project reports, Theses and Dissertations, Faculty publications and Old Exam papers can access through the repository.
